

2XB3 Project Proposal

	Task Name	Start Date	End Date	Dur ation	Mar 8							Mar 15							Mar 22							Mar 29						
					S	M	T	W	T	F	S	S	M	T	W	T	F	S	S	M	T	W	T	F	S	S	M	T	W	T	F	S
1	 General Layout	03/08/15	03/11/15	4																												
2	Redefined input/output	03/08/15	03/08/15	1																												
3	Sample View on paper	03/08/15	03/08/15	1																												
4	classes interact with each other	03/09/15	03/11/15	3																												
5	sample data and test cases	03/09/15	03/11/15	3																												
6	 Build The View	03/12/15	03/13/15	2																												
7	Make the Analyze Section	03/12/15	03/13/15	2																												
8	Make the Explore Section	03/12/15	03/13/15	2																												
9	 Build The Model	03/16/15	03/26/15	9																												
10	Conceptual model	03/16/15	03/23/15	6																												
11	Programing the model	03/24/15	03/26/15	3																												
12	 Make the controller	03/27/15	03/31/15	3																												
13	build the controller	03/27/15	03/31/15	3																												
14	 Finish up	04/01/15	04/02/15	2																												
15	Make the presentation	04/01/15	04/02/15	2																												
16	Connect everything together	04/01/15	04/02/15	2																												
17	Extreme testing	04/01/15	04/02/15	2
